Overall ROAS

49.4%

Returning customers

## Database snapshot

Flat marketing table — one row per campaign/service observation. No customer IDs, NPS, or bundle flags yet; loyalty is inferred from Customer Type.

| Column        | Role          | Values / notes                            |
|---------------|---------------|-------------------------------------------|
| Date          | Time          | 2024-01-01 → 2024-04-30                   |
| Revenue       | Outcome (\$)  | Avg ~\$779 per record                     |
| Ad Spend      | Cost (\$)     | Total \$514,908                           |
| Conversions   | Volume        | 10,069 total                              |
| Service Type  | Offer tier    | Standard 668 · Seasonal 651 · Premium 681 |
| Customer Type | Loyalty proxy | New 1,012 · Returning 988                 |
| Channel       | Acquisition   | Google · Instagram · Referral · Email     |
| Region        | Geo           | North · South · East · West               |

### Customer mix

New 1,012 Returning 988

Nearly even split — loyalty programs can tip the balance.

### Service mix

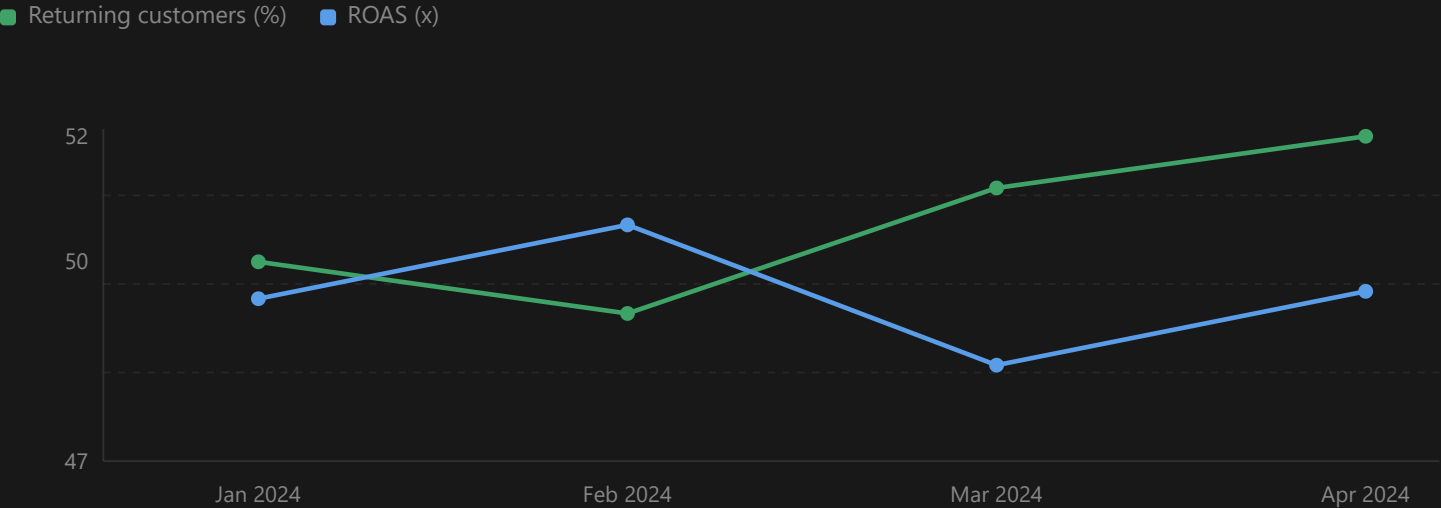

Standard 668 Seasonal 651 Premium 681

Balanced tiers — good base for bundle packaging.

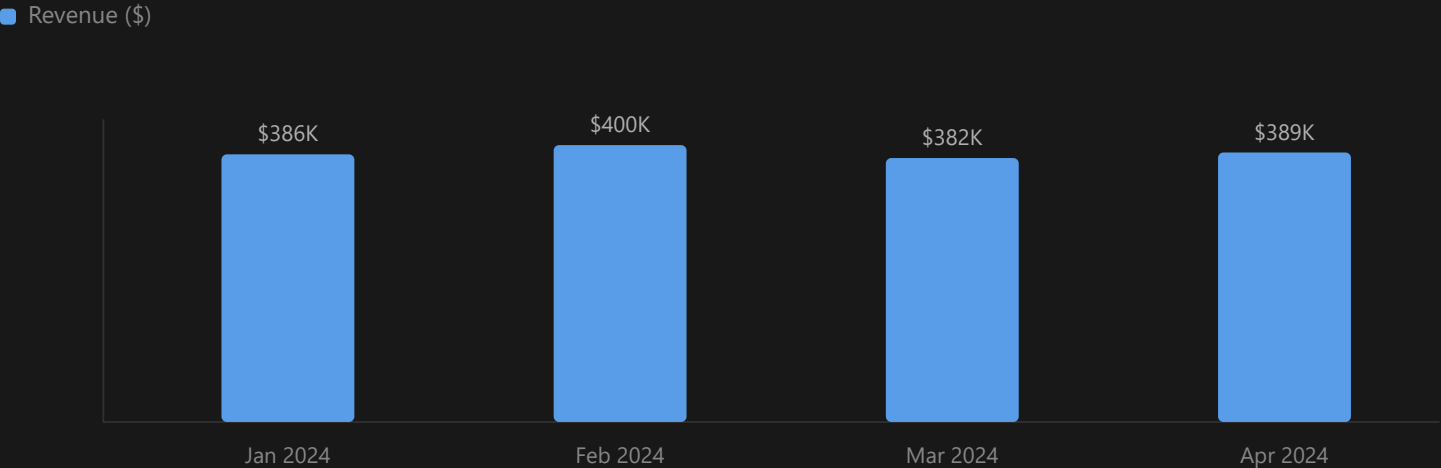

### Loyalty signal over time

Returning share rose from 48.4% in January to 51.8% in April while ROAS stayed near 3x.

### Revenue by month

## Service tiers vs loyalty

Premium returning jobs earn the highest average among Premium customers; Standard leads on ticket size overall but trails on return rate.

| Service  | Records | Revenue   | Avg revenue | Returning % | ROAS  |
|----------|---------|-----------|-------------|-------------|-------|
| Premium  | 681     | \$523,610 | \$769       | 50.1%       | 3.01x |
| Seasonal | 651     | \$500,642 | \$769       | 49.6%       | 3.05x |
| Standard | 668     | \$533,271 | \$798       | 48.5%       | 3.01x |

Premium × Returning

Upsell

\$796

Avg revenue (returning)

vs \$742 for Premium × New — strongest loyalty lift inside a tier. Bundle maintenance visits onto Premium jobs.

Standard retention gap

Risk

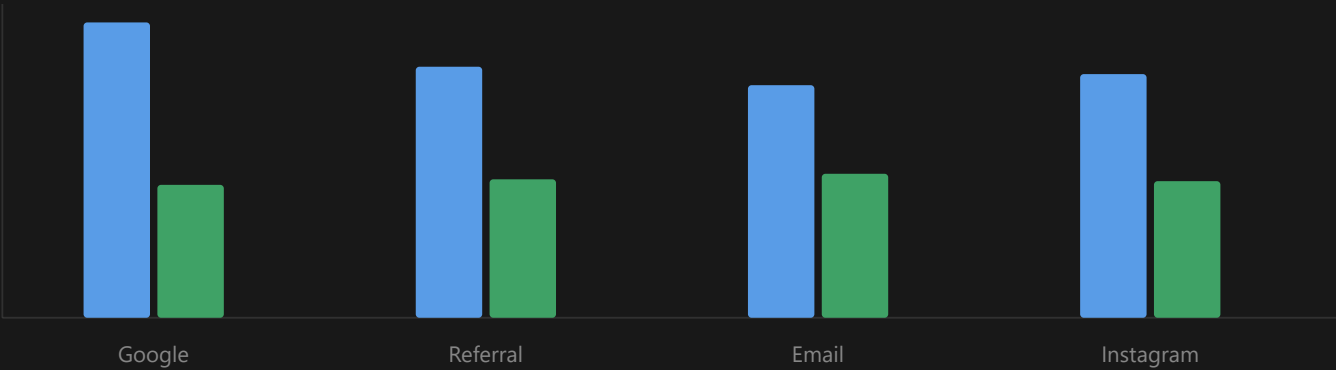

48.5%

Returning share

Highest average ticket (\$798) but lowest return rate. Survey after Standard jobs to find friction before churn.

## Channels that feed loyalty

Revenue (\$K) Returning %

Source: Data.xlsx · channel totals · Returning % plotted on same scale for comparison (not dollars)

| Channel   | Revenue | CPA     | ROAS  | Returning % | Loyalty note                               |
|-----------|---------|---------|-------|-------------|--------------------------------------------|
| Email     | \$355K  | \$52.79 | 3.00x | 51.0%       | Best return rate — survey & rebook here    |
| Referral  | \$383K  | \$49.26 | 3.02x | 49.9%       | Lowest CPA — reward referrers with bundles |
| Google    | \$449K  | \$51.56 | 3.14x | 48.2%       | Top revenue & ROAS — convert new → return  |
| Instagram | \$370K  | \$51.12 | 2.92x | 48.8%       | Weaker ROAS — use for seasonal promos      |

## High-loyalty channel × service pairs

Best places to pilot bundles and follow-up surveys.

| Pair                 | Records | Returning % | Avg revenue | Action                                       |
|----------------------|---------|-------------|-------------|----------------------------------------------|
| Referral × Premium   | 180     | 55.6%       | \$738       | Annual Premium care bundle + referral credit |
| Email × Seasonal     | 152     | 54.6%       | \$772       | Seasonal reminder survey + pre-book discount |
| Instagram × Seasonal | 155     | 51.0%       | \$710       | Post-job CSAT → offer Standard upgrade       |
| Google × Seasonal    | 185     | 48.1%       | \$832       | Highest avg ticket — attach multi-visit plan |

## Regions

51.9%

West returning

50.5%

North returning

48.4%

South returning

46.7%

East returning

West leads on loyalty; East has the lowest returning share but solid ROAS (3.05x) — prioritize East surveys and win-back offers. South posts the highest average revenue (\$808).

## Recommended program

### Post-service surveys

#### When

Within 24 hours of job completion, especially Standard and East-region jobs.

#### What to ask

Satisfaction (1–5), likelihood to rebook, interest in a maintenance bundle, and preferred channel (email already retains best).

#### Close the loop

Scores ≤3 trigger a callback; scores ≥4 get a one-click Seasonal or Premium bundle offer.

### Service bundles

#### Care Plus (Standard → Seasonal)

Two seasonal checkups after a Standard repair — targets the retention gap on the highest-ticket tier.

#### Premium Shield

Annual Premium plan sold to Referral and returning Premium customers (already 55.6% return on Referral × Premium).

#### Seasonal Autopilot

Email reminder + pre-booked Seasonal visit — leans on Email’s 51% returning rate.
